Special Study Group: I called Mr. Meloon this morning and asked that he review the space and facilities in East Building to accommodate a special study group which is about to be constituted. The group will consist of 5 principals, 1 personal assistant to the chairman, 1 staff director, 1 each representatives from BOB, NSA and DIA, two Agency representatives and about 4 to 7 secretaries and Security and administrative support. At the moment the exact size of the staff is uncertain. We expect to have a preliminary plan with layout of East Building by 4 August.
